

ASF RANGE

IP65 LED ALTERNATIVE TO TUNGSTEN & METAL HALIDE

The ASF is a RoHS compliant energy saving adjustable IP65 flood. Suitable for domestic, commercial and industrial external lighting applications, available in 10w (700 lm) to 240w (>18,000lm) versions. These are ideal low energy alternatives or direct replacements for tungsten, metal halide, sodium or mercury lamps.

This range offers energy saving between 50-70% whilst also reducing your carbon footprint. With the benefit of a 50,000 hr. lamp life and a three year warranty for approved installations, lamp changes will be a thing of the past.

The alloy case and toughened glass diffuser houses the Epistar LED chips with 120° beam angle, supplied with a 2m cable all mounted on a detachable adjustable bracket making installation quick and simple.
